Forecast for Sunday 06 Dec 2020

Weather: The Ochils and most of the Southern Highlands will stay dry with clear or sunny spells, but a small risk of a few shallow fog patches in the glens. Over the Angus and Aberdeenshire Hills there will be more cloud and a few wintry showers.

Chance of cloud free mountain/hill tops above 800m: 90% for most of the area but nearer 50% over the Aberdeenshire and Angus Hills with some cloud mainly near showers.

Visibility: Mostly good but occasionally moderate, perhaps briefly poor, in showers in the north.

Met Office Aberdeen Meteorologist's View
Any poor visibility will be below 300m. Some glare from the lying snow.

Forecast for Monday 07 Dec 2020
Weather: The south of the area dry overnight and through the day with broken cloud and some sunny intervals. More in the way of cloud and showers across the Aberdeenshire Hills these showers of snow above 750m. Becoming more generally cloudy from mid evening with more persistent rain, with snow above 600-750m, arriving, which with strengthening winds may lead to blizzard conditions setting in across the summits.

Maximum wind: Northeast 10-15mph becoming north in the afternoon increasing 25 gusts 35mph towards dusk then strengthening further to 40 gusts 55mph late evening.

Chance of cloud free mountain/hill tops above 800m: 70% in south and 30% in north during the day but falling 10% from mid evening.

Visibility: Mostly good in south by day, occasionally moderate or poor in north in showers then poor or very poor later in the evening.

Temperature: **Glens:** Minus 2 to Minus 5 at dawn, lowest temperatures in the clearer south, rising to Plus 4 in north but may stay below freezing in a few southern glens.
At 800m: Minus 2 Celsius
Freezing level: 700m
